George Town Dec. 28, 1852.

My Dear Thomas,

It is reported that the Cholera is in the city, or something similar prevailing there, is it so, or not, my object for enquiring in this, that I have some idea of going down for a day or two, and do not wish to leave my family here, with anxiety on that account. I have been long anxious, and now while I am here, least it may never be done to have our burying, or rather family burying ground enclosed from the needs of footstep of Man and Beast; from that sacred, solemn resting place, either by Brick or Iron if it does not cost too much $55 feel Sycamore, A. W. Dozier 1/2 Bury. Being are anxious to have it done, and have promised me since, it is a work that I want all of us who can do any thing to assist, it is a privilege, if not duty to our dear departed friends, to those that may follow. Also to procure a Plot, to mark the spot where my dear Bury rests. — Hope you are all well, and that Elizabeth Children experience no sickness by the bad weather as crossing over. Colds are very prevalent here, your little ones have had a turn, but are better again, Daniel has suffered most, having a little scar throat with it.

All said, Love to you — As ever your Attached Uncle

My Dear Thomas

I am sorry to trouble you so much, when I know you have enough to keep you employed, but while in the World, we have its trials, and difficulties to encounter. I write you by Mondays Mail, saying that the Boy William had returned, it is evident that he is still dissatisfied with the House, and does nothing cheerfully, and are in an ill humor, and frequently saying to the servants, unless removed, will take himself off, having made the attempt recently, but failing in the attempt; to reach the Boat in time, and finding that I was so soon upon his track, he concluded to return, but we have lost confidence in him, and have concluded under all circumstances best to sell him. What do you think of it? if so what do you think he will sell for. Yellow, about 5 ft 8 or 10 inches high, about 18 or 19 years old, smart handy, when he is disposed to be so, if sent down, he should not be allowed to run at large, until sold, as he may have a relish for freedom, as He can read, and write pretty well, and as he has proven ungrateful for kindness, we shall not object to his being sold out of the State. Let us hear from you on the subject, when we can
send him down, He is somewhat of a tailor, and seems very well, was some time at the Trade when young. The Letter written for will be attended to, as soon as I can get information from the Col. Committee. I wish you could be here next Sabbath, if the Brother do not fail to come up. Our love to you all. As ever your affectionate Uncle

My Dear Thomas,

On the other side, I send you the Certificate asked for, which is sufficient to enable you to act in the matter. In relation to the Boy W., I hope you will not think us too hard, if you see we are not anxious to part with him, if he will be satisfied, and behave himself; yet determined no longer to submit to his behavior, therefore wrote to you on the subject, making necessary arrangements before speaking to him, as to our determination in the matter. Last Night, I spoke to him in relation to his conduct, behavior, and dissatisfaction, both as regards his profession of religion, and duty as a servant, and that we could no longer put up with his conduct, and to choose for himself, a proper situation, to his benefit, or on Exchange of Children. He says he has no desire or wish to be sold, but confesses his anxiety to quit House work, I go to a Source that he may have an opportunity to make something for himself, as they cannot do it while in the House, and be Honest. I know it is a common desire of all young Negroes, it was so in my Mother's time, I have noticed it ever since, but we cannot get along well, without some Boy about House. We will watch his movements, when you will hear from us again on this subject.

I wish you could have been here last Sabbath, a solemn and interesting time, and a full House, and the People delighted with the Preaching. They left us yesterday in St. Charleston, but heard last Night, they were still at the Island, being too rough to venture out, hope they may arrive safely, their visit will be long remembered.

Our united love to you all. O.H. says he has some Ledger in the Country, has soon a. He has an opportunity will send him one.

Aff. Yours — Henry Cutting.

My Dear Thomas,

Since my last to you, the Boy William has made up his Mind not to be satisfied to remain in the House, consequently he prefers running the risk of a better timber; perhaps it is for the best, our Minds will no longer be tried by his conduct, or the uncertainty of his stay here; I hope you may be able to get a good price for him, when I was down saw two Boys sold bring over $1000, and were he satisfied, would not part with him at that price; for he can make himself useful, handy if he is so disposed. But of course we do not limit you, but do the best you can. Should you effect a Sale of him, You can sign the Bill of Sale, for your Sister. Humanity prompts me to say, it would be well, to let his Mother know, that he is there for Sale. I wish to send him down to Morrow Morning (Friday) on Board the St. Bl. Capt. Clinch if I can; if not on Saturday by the Charleston or Nina; and will be glad if you will have some one, to take charge of him, as I do not wish him to run at liberty untill sold. Please let me hear of his safe arrival. I am happy to inform you that the Wall is just finished. Yours truly be Henry Cutting.

My Dear Thomas,

Yours of Saturday and Monday reached here on Tuesday Morning, and was received by me yesterday Evening on my arrival here, and now hasten to Enclose you the Bill of Sale, Signed, and Witnessed by a Magistrate, as requested; but makes it no better; in a Sale of this kind, you, or I, are as competent and just as good, as though done in the presence of Gov. Manning, or even James Potter Esq. which I hope will be satisfactory. If you know, I should like to hear, if he is sold to a City Man, for what purpose, and if his Mother has anything to do in the affair; Curiosity prompts the enquiry.

Your Sister wrote you in mine of Monday last, and waits your answer, before she concludes to go down on Wednesday next in the Nina, with Alice who expects to leave here on that day. We are sorry to hear of Townsend's sickness, hope he is again well, and that you are all in the enjoyment of health. I very much need help.

Our Love to you all. As our Yours.

I will send down in the Nancy Sullivan.

S. B. Charleston, to Monckow Morning, the Captain for five hours as requested, in Charge of the Steamer a Col. Man.
The Pitot, April 12, 1855

My Dear Nephew,

Your favor covering Seventy Six Dollars, was received yesterday, and for it I am pleased to accept—my thanks. I hope you are all well, although you made no mention of them in your letter. I still feel lonely and sad, and now in my declining health, O how I miss that dear one, who was ever attentive to my comfort and happiness. But I wish to be free, and submissive to the will of my Heavenly Father, believing it cannot be very long before I must follow, if so happy as to be found prepared to meet her in that holy and happy Place, free from sin, ever to sing of Redeeming Grace and dying Love. I feel Death to be a solemn thing, although I am trying daily to keep it in view, may the Lord grant unto me Dying Grace, and that I may leave the World in triumph. Savage left us a little earlier than I expected, but I saw his end was near, and called his attention to the solemn fact. I believe He was ready for the change. My Disease is not yet arrested, there is continued so long, have but little hopes of being better. Remember me in your prayers, May the Lord direct, comfort, and help you in all your ways, and make youeminently useful in his service. My Love to your Household.

Your affectionate Uncle

My Dear Thomas,

I write you yesterday acknowledging the receipt of yours, covering the $40 sent me. A little matter of business has come to my hearing since then, in which you and others are interested; and as I understand Mr. Mitchell wishes to see you on the subject, have concluded to make you somewhat acquainted with facts, that you may be prepared to give him an answer. You are aware that your Bro. Wm. has a claim against the heirs for travelling expenses, &c., for nine years, amounting to upwards of $500, deducting $100. I paid him some time ago. This amount, whatever it may be, Mr. Mitchell claims of Wm. for the benefit of his creditors; not only so, but he wishes you with the others to allow him interest on the amount, if allowed to him, it will reach the sum that each heir will now draw, I suppose. And as Wm. is not to be benefitted by it, why should his creditors be entitled to interest on an often account, when the heirs of Bennett could not recover all the interest paid them from Arents' estate, and some of Smith's heirs, are as needy as Mr.'s creditors are. Confer with Mr. James Smith on the subject. Let me hear, if it will be best left to differ on the subject, if you both consent to it, the others will not wish to appear more selfish.

I was in hopes there would be no necessity for an Administration
Savage as his affairs are nearly settled, but W. Mitchell says as the estate of Smith is not yet settled, and as more money may yet be coming in from Hunt, it is right that some one as the state of my health is so precarious, must decline.

I have thought that as D.T. is young, and on the first, we had better make application, and to discharge the debtors against the regards Williams Annunabvis Visit for the 9 days, I always regarded as unnecessary, as the business was a long time locked up in Court, holding references, postponed from time to time. But I have told Mr. that I was sure the King was willing to do right, and in making out his accounts of expenses, if he really felt that the visits were made expressly for the estate business, the King would allow, although we gave Mitchell wishes to see how much he can make out of it, from the King, and so retain it in his hands, and then pay over the remainder to the respective parties.

Waiting times me, and having got through what I had to say, will conclude. Let me hear your decision.

Love to all. As ever Your Affectionate uncle

Henry Sullivan

My Dear Matthew

Yours of the 25th, I received, and thank you for it. I will now acknowledge my remittances in not acknowledging the receipt of your former letters in my last, wherein you kindly invited me to make a visit to your family while at Summerville, with the assurance of their tender care of me, while sojourning with them, although it would afford me pleasure to see it be with them; I feel that home is the most proper place for me, as I never like to be troublesome to friends. The state of my health has been such, that I think it most prudent to be at home, not only so, I feel that I am no company for any one, for even here, I have but little to say, but when called forth by circumstances. When not using exercise on Horseback, my time is spent in Reading, or looking back upon a mispent life, and forward to the shortness of time before me, and were it not for a little Hope that all may and will, I would half a gloomy time for I feel like one alone.

As regards your request some time since, to possess your Father's Miniature, and of one for your Mother's likeness, I had escaped my recollection, but I presume from the fact, that I had already given them to my dear Niece, as also making provision for her, after I was gone, with her own resources, would have made her comfortable, and independent as regards means for her Maintenance, and pleasure. In the management of her...
